Additional Comments _____

Meet the Doctor

Dr. Pawar believes that Orthodontics is not just about straightening teeth but more about creating beautiful, confident smiles.

After completing dental school in Sydney Australia, she moved to San Francisco, CA to pursue a career in Orthodontics and received her Masters of Science in Dentistry, Orthodontics from University of the Pacific, Arthur A Dugoni School of Dentistry.

Outside if the office she can be found spending time with her husband and two daughters hiking, snowboarding and cheering on the Seattle Seahawks & Kraken.
